

HEAR NO EVIL

VAN DAMME STAGE AND WALL BOXES

Van Damme stage and wall boxes are constructed from a custom aluminium extrusion and steel top, bottom and side plates with a tough black powder coat finish. The rear plates are supplied with keyhole slots for wall mounting, and the available configurations suit both installation and live applications, particularly with the optional side plates pre-cut for the relevant Van Damme VDM multipins. A true tried and tested industry workhorse.

HEAR NO EVIL

Applications

- Wall and stage boxes for installation
- Stage box to tails and stage box with multipin for live sound

Application Notes

- Available in 3 sizes – 4 way, 8 way to 48 way in rows of 8, and 1 and 2 row 12 way
- Optional side plates for the suitable Van Damme VDM multipin
- Keyhole mounting holes as standard on the rear panel
- Standard Neutrik D Series cut outs
- Supplied with rubber feet fitted – remove to use as a wall box

Wall box dimensions

Part no.	Size	Width (mm)	Depth (mm)	Height (mm)
761-044-004	4 way	143	100	124
761-046-008	8 way	285	100	124
761-048-016	16 way	285	100	170
761-050-024	24 way	285	100	212
761-052-032	32 way	285	100	255
761-054-040	40 way	285	100	300
761-056-048	48 way	285	100	344
761-049-012	1 row extended 12 way	412	100	124
761-051-024	2 row extended 24 way	412	100	212

Add 10 mm to depth for stagebox dimensions (rubber feet fitted)
